

Daily Activities Reports Feb 2nd

Cst Lemieux & Cst Islam

- Notified all contacts within the Centretown PINS (Post incident network), reaching out to partner agencies/stakeholders offering supports and providing Make the Right Call information, including providing information about our social media platforms and media releases for the most updated information.
 - Centre 507 responded indicating they have had no problems but support OPS and the initiatives/work that we are doing
 - OCH Manager responded indicating tenants in their buildings are having a really hard time with the noise/fumes and provided addresses that they felt could use extra police supports: 450 Laurier Ave, 453 Cooper St and 170 Gloucester. Centretown NRT officers attended these locations today offering supports to people on site.
 - Centretown Emergency Food Centre at 507 Bank St responded indicating they are doing fine but that their numbers are down due to problems with people getting to their site, and not attending so as to avoid confrontation with protesters.
 - Restoring Hope Ministries responded to my email with concerns about their staff accessing their youth shelter at the First Baptist Church located at Elgin/Laurier Ave – I called Jason and informed him to ensure all of his staff have appropriate ID/letters of representation in the event they are stopped at any closures, to be provided to police to get through, in order to ensure that the shelter opens Friday to Tuesday.
- Coordinated with the Good Companions Centre for food deliveries for tomorrow – delivery locations are not within the hot zone – but instead located on Besserer/Cumberland/York St. I provided my cell phone number for the driver to have in the event he runs into closures and we need to escort them in. Ongoing coordination into Monday.
- Responded to emails from Councilor McKenney's office regarding 324 Laurier Ave W and complaints from one owner. Spoke with the owner, and attended the condo address and spoke with the Concierge who informed us that the noise and fumes are unbearable and that owners are leaving in "droves" to stay somewhere else. Garbage pickups have been very challenging, and are delayed due to the gridlock of getting the trucks in to do pickups. Allegedly a "meals on wheels" vehicle was ticketed while parked out front making a food delivery, which really upset owners. People are scared to go outside for fear of being harassed, one person was allegedly pushed into a snowbank. There are doctors who live in this building who are on night shift and haven't been able to get enough sleep to go to work for their shifts.
- Attended 45 O'Connor St – World Exchange Plaza – to speak with property management. They have closed down their parking garage despite having an agreement with the city to keep open for daily parking. Graffiti has been found on the building (expletives toward PM Trudeau). They indicated that if need be they can be contacted if police need to access the penthouse for a "birds eye view" of the demo.
- Reached out to [REDACTED] in response to the email she sent to Chief Sloly – no reply as of sending this email.

- Reached out to [REDACTED] in response to her email to Chief Sloly and she indicated she did not want to speak with us or take away from resources, I responded that it is our assignment to do outreach and if she changes her mind, we are here and can go see her or call her.
- Attended 200 Laurier Ave – Hair Junkie – spoke with the owners who are frustrated. They informed us that they will remain open because they have staff who are struggling to pay their bills/rent due to all the closures. They are frustrated by the unknown. They are fully booked for Saturday but are understanding they may have to close depending on the situation at that time.
- Attended 98 Metcalfe St – Gateway Convenience Store – ongoing problems with anti-maskers, otherwise all in order. As we were there, 2 unmasked men were entering the store and when they saw us inside, they left.
- Attended 99 Metcalfe St – Second Cup – ongoing problems with anti-maskers. Protesters are otherwise fine to deal with.
- Attended 100 Metcalfe St – Tim Hortons – seems to be ok there – protesters are polite, but people are not wearing masks.
- Attended 119 Slater St – Shwarma Express – Anti-maskers are problematic, otherwise they are ok.
- Attended 123 Slater St – Iconic Café – No issues – it appears staff/owners also do not wear masks so they are accepting of people in their restaurant not wearing masks.
- Attended 110 Slater St – Subway – They have had issues with people stealing water bottles and people not wearing masks
- Attended 81 Metcalfe St – Starbucks – Washrooms are closed to everyone. People are refusing to wear masks
- Spoke to [REDACTED] (ongoing conversations with him since Friday) – informed me of counter-protest of Indigenous people who have contacted his hotel to book rooms, and letting them know that they will be occupying Confederation Park this weekend with their own demands. We contacted Sgt Le of PLT and this information was provided to Cst Lamarche of PLT. [REDACTED]
[REDACTED]
- Flagged down by woman on Laurier/Bank St - very upset and frustrated with the noise/disruptions of the protest. We heard her out for a good 20 minutes, she was in better spirits after leaving us.
- Reached out to [REDACTED] to provide supports to their staff/clients. Dawn indicated that clients are experiencing racism, harassment, and just really struggling with the disruptions (noise etc) – She was provided Make the Right Call information along with the hate crime hotline number.
- Received email at 1800 hours from Councillor McKenney's office regarding a truck in front of Constitution Square (Lyon St/Albert and Slater) with a noose on the front of the truck. The complainant has had to leave her home, she says there is no police presence at this location. We will go tomorrow to assess. PLT Sergeant Le called and advised and asked to send PLT officers over to speak with trucker, if possible.

- Spoke to Bank St BIA, who is looking to organize a positive event for their members in the coming days. I will be coordinating with staff to be involved with that.
 - A/Supt. Zackrias attending daily meeting with Councilor Fleury and the Downtown BIA's along with Cst. Lemay
